RE: Judge Susan Theall

To Whom It May Concern:

I am pleased to provide my official letter of endorsement in support of Judge Susan Theall and her candidacy for re-election as Family Court Judge of the 15th Judicial District Court. As a clinical psychologist who has been involved in legal cases with Judge Theall serving as the Presiding Judge, I have a unique perspective in providing my professional endorsement of this candidate.

Having observed Judge Theall's service on the Family Court, I have come to appreciate the importance she places on fairness, careful consideration of the matters before the Court, and the dignity of the families and individuals who appear before her. Family Court cases often involve difficult and highly personal circumstances, and Judge Theall approaches these responsibilities with professionalism, patience, and respect for the judicial process.

One quality I particularly appreciate is Judge Theall's willingness to educate attorneys and share her knowledge and experience with her colleagues. She recognizes that the strength of our judicial system depends not only on the decisions made from the bench, but also on the continued professional development of those who practice before the court and serve alongside her.

Specifically, I recall Judge Theall facilitating an educational opportunity for local mental health professionals. Judge Theall, along with another Family Court judge, took a significant amount of personal time educating local counselors, psychologists, and social workers about the process of being called as a witness in Family Court. The seminar was educational, motivating, and insightful.

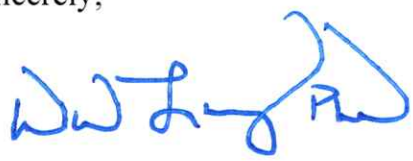

Her willingness to teach, explain, and share her understanding of the law reflects a genuine commitment to improving the practice of law and strengthening the administration of justice. She contributes to a professional environment in which attorneys and colleagues can learn, grow, and better serve the families who rely on the court.

Judge Theall brings valuable experience to the bench and understands the significant responsibilities that come with serving in Family Court. Her experience has provided her with a practical understanding of the issues that families face and the importance of making decisions based upon the law and the facts presented in each case.

I believe continuity and experience are important qualities in Family Court, where cases can have lasting consequences for children, parents, and families. Judge Theall has demonstrated a commitment to carrying out the responsibilities of the office and to treating those who come before the Court with courtesy and respect.

For these reasons, I am proud to offer my endorsement of Judge Susan Theall for re-election, I respectfully encourage voters to consider her experience, service, impartiality, and commitment to the responsibilities of the Family Court.

Sincerely,

Dr. David Landry, Ph.D.
